Subject: Reference for Vermont Nutrient Trading Proposal

Hello Claire, I wanted to let you know that The Freshwater Trust (with support from the Willamette Partnership) just submitted a proposal to some agencies in Vermont looking to develop a nutrient trading program in the Lake Champlain Basin. We included your name as a potential reference that could speak to our work with the JRR and elsewhere – I hope this isn't an imposition and that you're comfortable doing so. Apologies not to ask beforehand, things have been far too crazy here (in a good way). Thank you so much! And have a great weekend.

RFP here if you're interested in context:
